## Help End Mammogram Screening Confusion

We need your help! Partner with University of California medical researchers in a study designed to end the confusion about when to start and how often to have a mammogram.

- Learn about your personal risk for breast cancer
- Help us clarify mammogram guidelines for ourselves, our sisters, our daughters, and future generations.

Learn more and join the study at [wisdomstudy.org](http://wisdomstudy.org)

**It's SIMPLE:** Participation can mostly be done from home, and there are no additional medical visits required.

**It's SAFE:** Your health is our top priority. Everyone in the study receives high quality care.

**It's SCIENTIFIC:** Team up with medical researchers to discover the best mammogram guidelines.

Screening Mammography and Breast Care Centers are part of the Athena Breast Health Network

**Share your Wisdom.  
Together, we can find answers.**

Who can join? Women who:

- are 40-74
- have not had breast cancer or DCIS (ductal carcinoma in situ)
